

Seeking Healthy Participants for a Brain Excitability Study

Research at Beth Israel Deaconess Medical Center is investigating the effects of noninvasive brain stimulation on brain excitability

- If you're a **healthy, right-handed** individual between the ages of **18-65** you might be eligible to participate in our study!
- Participants will be compensated up to **\$1,300!**

Study Involves:

- Screening/Baseline visit
- Transcranial Magnetic Stimulation (TMS) and EEG (recording of the brain's electrical activity)
- MRI
- 10 - TMS and EEG Visits
